

Flu Protection You Can Trust

At TotalWellness, we've been helping companies create healthier, happier workplaces since 1998. From our very first flu shot clinic to the thousands of events we now coordinate each year across the U.S., our mission has always been the same: make preventive care easy and accessible.

We partner with top-tier vaccine manufacturers, hire experienced healthcare professionals, and follow strict safety and handling protocols — so you can feel confident in the care you receive.

About This Year's Vaccine

Your on-site flu shot clinic will be using Afluria® Trivalent, a seasonal influenza vaccine manufactured by CSL Seqirus, one of the world's largest and most respected flu vaccine producers.

CSL Seqirus has a rich heritage in the fight against influenza. As part of CSL, their expertise dates back to the devastating 1918 influenza pandemic, and they've worked with health partners on the front line of influenza protection ever since. Today, they are a global leader in flu prevention, supplying millions of doses every year.

Safe. Effective. Backed by 100+ Years of Expertise.

- **Manufacturer:** CSL Seqirus — one of the largest influenza vaccine providers in the world.
- **Vaccine Type:** Afluria® Trivalent, an inactivated (non-live) vaccine. This means it cannot cause the flu.
- **Single-Dose & Preservative-Free:** Delivered in a ready-to-use, pre-filled syringe that contains no preservatives, including thimerosal.
- **U.S. FDA-Approved:** Licensed by the U.S. Food and Drug Administration for use in individuals six months of age and older, and produced to meet stringent U.S. manufacturing and safety standards.

How We Ensure Quality

- **Strict Cold Chain Management:** From the manufacturer to your arm, vaccines are kept within the temperature range required to maintain potency.
- **Trained Clinical Staff:** Your vaccination will be administered by licensed healthcare professionals following CDC guidelines.
- **Continuous Safety Monitoring:** CSL Seqirus works closely with the CDC and FDA to monitor and review vaccine safety after distribution.

Why You Can Feel Confident About Afluria®

- **Proven Track Record:** Used safely in the U.S. for over a decade.
- **Annual Updates:** Formulated each year to match the most likely flu strains for the season.
- **Broad Protection:** Trivalent vaccines protect against three flu virus strains — two influenza A strains and one influenza B strain.
- **High Manufacturing Standards:** Produced in state-of-the-art facilities with rigorous quality control.

Your health and safety are our top priority. With over 25 years of experience in workplace wellness and a vaccine backed by over 100 years of influenza expertise, you can feel confident that you're getting a safe, effective, preservative-free flu shot.
